First World War a war (1914–18) in which the Central Powers (Germany and Austria-Hungary, joined later by Turkey and Bulgaria) were defeated by an alliance of Britain and its dominions, France, Russia, and others, joined later by Italy and the US.

Political tensions over the rise of the German Empire were the war's principal cause, although it was set off by the assassination of Archduke Franz Ferdinand of Austria by a Bosnian Serb nationalist in Sarajevo, an event used as a pretext by Austria for declaring war on Serbia. Most of the fighting took place on land in Europe and was generally characterized by long periods of bloody stalemate; the balance eventually shifted in the Allies' favour in 1917 when the US joined the war. Total casualties of the war are estimated at 10 million killed. One of the consequences of the war was the collapse of the German, Austro-Hungarian, Russian, and Ottoman empires.

2 (the former) denoting the first or first mentioned of two people or things: *those who take the former view* | [as noun] *the powers of the former are more comprehensive than those of the latter.*
– ORIGIN Middle English: from Old English *forma* (see **FOREMOST**) + **-ER**[2].

USAGE Traditionally, **former** and **latter** are used in relation to pairs of items: either the first of two items (**former**) or the second of two items (**latter**). The reason for this is that **former** and **latter** were formed as comparatives, and comparatives are correctly used with reference to just two things, while a superlative is used where there are more than two things. So, for example, strictly speaking one should say *the longest of the three books* but *the longer of the two books*. In practice, **former** and **latter** are now sometimes used just as synonyms for **first** and **last** and are routinely used to refer to a contrast involving more than two items. Such uses, however, are not acceptable in good English style.

fulmar /'fʊlmə/ ▶ **noun** a gull-sized grey and white seabird of the petrel family, with a stocky body and tubular nostrils.
● Genus *Fulmarus*, family Procellariidae: two species, in particular the **northern fulmar** (*F. glacialis*) of the arctic area and British Isles.
– ORIGIN late 17th cent.: from Hebridean Norn dialect, from Old Norse *fúll* 'stinking, foul' (because of its habit of regurgitating its stomach contents when disturbed) + *már* 'gull'.

fulminant /'fʊlmɪnənt, 'fʌl-/ ▶ **adjective** Medicine (of a disease or symptom) severe and sudden in onset.
– ORIGIN early 17th cent.: from French, or from Latin *fulminant-* 'striking with lightning', from the verb *fulminare* (see **FULMINATE**).

▶ **noun** Chemistry a salt or ester of fulminic acid.
– ORIGIN late Middle English: from Latin *fulminat-* 'struck by lightning', from *fulmen, fulmin-* 'lightning'. The earliest sense (derived from medieval Latin *fulminare*) was 'denounce formally', later 'issue formal censures' (originally said of the Pope). A sense 'emit thunder and lightning', based on the original Latin meaning, arose in the early 17th cent., and hence 'explode violently' (late 17th cent.).

fulmination ▶ **noun** (usu. **fulminations**) an expression of vehement protest: *the fulminations of media moralists.*
■ a violent explosion or a flash like lightning.

fulminic acid /fʌl'mɪnɪk, fʊl-/ ▶ **noun** [mass noun] Chemistry a very unstable acid isomeric with cyanic acid.

fulsome ▶ **adjective** **1** complimentary or flattering to an excessive degree: *the press are embarrassingly fulsome in their appreciation.*
2 of large size or quantity; generous or abundant: *the fulsome details of the later legend.*
– DERIVATIVES **fulsomely** adverb, **fulsomeness** noun.
– ORIGIN Middle English (in the sense 'abundant'): from **FULL**[1] + **-SOME**[1].

USAGE Although the earliest use of **fulsome** (first recorded in the 13th century) was 'abundant', this meaning in modern use is held by many people to be wrong. The correct meaning today is 'excessively flattering', although the word is still sometimes used to mean simply 'abundant'. This gives rise to ambiguity: the possibility that while for one speaker **fulsome praise** will be a genuine compliment, for others it will be interpreted as an insult. For this reason alone, it is best to avoid the word altogether if the context is likely to be sensitive.

Fulton, Robert (1765–1815), American pioneer of the steamship. He constructed a steam-propelled 'diving-boat' in 1800, which submerged to a depth of 7.6 m (25 ft), and in 1806 he built the first successful paddle steamer, the *Clermont*.

fumitory /'fju:mɪt(ə)ri/ ▶ **noun** an Old World plant with spikes of small tubular pink or white flowers and finely divided greyish leaves, often considered a weed.
● Genus *Fumaria*, family Fumariaceae.
– ORIGIN late Middle English: from Old French *fumeterre*, from medieval Latin *fumus terrae* 'smoke of the earth' (because of its greyish leaves).

fun ▶ **noun** [mass noun] enjoyment, amusement, or light-hearted pleasure. *the children were having fun in the play area*
■ a source of this: *people-watching is great fun.* ■ playful behaviour or good humour: *she's full of fun.* ■ behaviour or an activity that is intended purely for amusement and should not be interpreted as having serious or malicious purposes: *the column's just a bit of fun.*
▶ **adjective** informal amusing, entertaining, or enjoyable: *it was a fun evening.*
■ [attrib.] (of a place or event) providing entertainment or leisure activities for children: *a school fun day.*
▶ **verb** informal, chiefly N. Amer. joke or tease: [no obj.] *no need to get sore—I was only funning* | [with obj.] *they are just funning you.*
– PHRASES **for fun** (or **for the fun of it**) in order to amuse oneself and not for any more serious purpose. **fun and games** amusing and enjoyable activities: *teaching isn't all fun and games.* **someone's idea of fun** used to emphasize one's dislike for an activity or to mock someone else's liking for it: *being stuck behind a desk all day isn't my idea of fun.* **in fun** not intended seriously; as a joke: *remember when you meet the press to say that your speech was all in fun.* **like fun** 1 dated, chiefly N. Amer. an ironic exclamation of contradiction or disbelief in response to a statement. 2 Brit. archaic vigorously or quickly: *the mill is blazing away like fun.* **make fun of** tease, laugh at, or joke about (someone) in a mocking or unkind way. **not much** (or **a lot of**) **fun** used to indicate that something strikes one as extremely unpleasant and depressing: *it can't be much fun living next door to him.* **what fun!** used to convey that an activity or situation sounds amusing or enjoyable.
– ORIGIN late 17th cent. (denoting a trick or hoax): from obsolete *fun* 'to cheat or hoax', dialect variant of late Middle English *fon* 'make a fool of, be a fool', related to *fon* 'a fool', of unknown origin. Compare with **FOND**.

USAGE The use of fun as an adjective meaning 'enjoyable', as in *we had a fun evening* is not fully accepted in standard English and should only be used in informal contexts. There are signs that this situation is changing, though, given the recent appearance in US English of comparative and superlative forms funner and funnest, formed as if fun were a normal adjective.

Funafuti /ˌfu:nə'fu:ti/ the capital of Tuvalu, situated on an island of the same name; pop. 2,500 (est. 1981).

funambulist /fju:'nambjʊlɪst/ ▶ **noun** a tightrope walker.

■[mass noun] fungal infection (especially on fish). ■ [in sing.] used to describe something that has appeared or grown rapidly and is considered unpleasant or unattractive: *there was a fungus of outbuildings behind the house.*

Fungi lack chlorophyll and are therefore incapable of photosynthesis. Many play an ecologically vital role in breaking down dead organic matter, some are an important source of antibiotics or are used in fermentation, and others cause disease. The familiar mushrooms and toadstools are merely the fruiting bodies of organisms that exist mainly as a thread-like mycelium in the soil. Some fungi form associations with other plants, growing with algae to form lichens, or in the roots of higher plants to form mycorrhizas. Fungi are now often classified as a separate kingdom distinct from the green plants.

– DERIVATIVES **gayness** noun.
– ORIGIN Middle English (in sense 2): from Old French *gai*, of unknown origin.

USAGE Gay meaning 'homosexual' became established in the 1960s as the term preferred by homosexual men to describe themselves. It is now the standard accepted term throughout the English-speaking world. As a result, the centuries-old other senses of **gay** meaning either 'carefree' or 'bright and showy' have more or less dropped out of natural use. The word **gay** cannot be readily used unselfconsciously today in these older senses without arousing a sense of double entendre, despite concerted attempts by some to keep them alive.
Gay in its modern sense typically refers to men (**lesbian** being the standard term for homosexual women) but in some contexts it can be used of both men and women.

George the name of four kings of Great Britain and Ireland, one of Great Britain and Ireland (from 1920 of the United Kingdom), and one of the United Kingdom:
■**George I** (1660–1727), great-grandson of James I, reigned 1714–27, Elector of Hanover 1698–1727. He succeeded to the British throne as a result of the Act of Settlement (1701). Unpopular in England as a foreigner who never learned English, he left administration to his ministers.
■**George II** (1683–1760), son of George I, reigned 1727–60, Elector of Hanover 1727–60. He depended heavily on his ministers, although he took an active part in the War of the Austrian Succession (1740–8). His later withdrawal from active politics allowed the development of constitutional monarchy.
■**George III** (1738–1820), grandson of George II, reigned 1760–1820, Elector of Hanover 1760–1815 and king of Hanover 1815–20. He exercised considerable political influence, but it declined from 1788 after bouts of mental illness, as a result of which his son was made regent in 1811.
■**George IV** (1762–1830), son of George III, reigned 1820–30. Known as a patron of the arts and *bon viveur*, he gained a bad reputation which was further damaged by his attempt to divorce his estranged wife Caroline of Brunswick just after coming to the throne.
■**George V** (1865–1936), son of Edward VII, reigned 1910–36. He exercised restrained but important influence over British politics, playing an especially significant role in the formation of the government in 1931.
■**George VI** (1894–1952), son of George V, reigned 1936–52. He came to the throne on the abdication of his elder brother Edward VIII. Despite a retiring disposition he became a popular monarch, gaining respect for the staunch example he and his family set during the London Blitz.

■write (words or drawings) as graffiti.
– DERIVATIVES **graffitist** noun.
– ORIGIN mid 19th cent.: from Italian (plural), from *graffio* 'a scratch'.

USAGE In Italian the word **graffiti** is a plural noun and its singular form is **graffito**. Traditionally, the same distinction has been maintained in English, so that **graffiti**, being plural, would require a plural verb: *the graffiti were all over the wall*. By the same token, the singular would require a singular verb: *there was a graffito on the wall*. Today, these distinctions survive in some specialist fields such as archaeology but sound odd to most native speakers. The most common modern use is to treat **graffiti** as if it were a mass noun, similar to a word like **writing**, and not to use **graffito** at all. In this case, **graffiti** takes a singular verb, as in *the graffiti was all over the wall*. Such uses are now widely accepted as standard, and may be regarded as part of the natural development of the language, rather than as mistakes. A similar process is going on with other words such as **agenda**, **data**, and **media**.
